EZI plumbing where so professional in every aspect, on time and so friendly. I reach out to Nat for plumbing advice and he was so calm in explaining what I needed to do, the job was out of my league so Nat came within 24 hours to help me and fixed the problem and went on to help me with another issue and guided me through what I needed to do...thank you so much ...if your looking for a professional plumbing Nats the best

We lost hot water on a Friday night and we tried a few different services but they said they couldn't do anything until the next week. I contacted Nat on the Saturday morning and he came straight to our place and sorted it out. We had hot water that night. We then had a few minor works that we needed to doing with tap fixtures, leaks and he sorted out our issues and gave quality, prompt service with quite reasonable rates. We would definitely recommend his services and contact him again should the need arise

Nat was Excellient, very confidant and knowledgeable, friendly and I was very happy with the job done.
I will definitely use his services again.

My hot water system broke down, and this company was suggested to me. Within two minutes of speaking with them, I received an exceptionally reasonable and competitive price quote. They were comforting and courteous, setting up for the new hot water system to be supplied the following morning and for two plumbers to arrive on the job site later that afternoon. It was installed and ready to use in three hours. I cannot express how highly I suggest EZI Plumbing, and they will now always be my first port of call. I'm grateful.

Nat provided prompt efficient service to have our hot water system working within an hour of our call for assistance. His help in fixing some problem taps, in a cost effective, friendly and professional manner was much appreciated. I would have no hesitation in recommending Nat for any of your plumbing needs.
